Quarterly Journal
of Neurosurgical Sciences
Official Journal of the
Italian Society for Neurosurgery

JOURNAL OF
NEUROSURGICAL SCIENCES

VOLUME 34 - 1990

Index

Subjects Index

Acoustic neurinoma
Acoustic neurinoma with intratumoral bleeding, 65.

Anaplastic gliomas
Experience in "radical" surgery of supratentorial gliomas in adults, 297.

Aneurysms
Aneurysms of azygous anterior cerebral artery. Report of two cases treated by surgery, 17.
Association of intracranial meningiomas and aneurysms. Report of three cases and review of literature, 51.
Asymptomatic occlusion of the internal carotid artery at the skull base, 21.
Clinical-tomographic evolution of a giant intracranial aneurysm. Case report, 29.
Small aneurysm clips for surgery of neck vessels, 13.

Anterior cerebral artery
Aneurysms of azygous anterior cerebral artery. Report of two cases treated by surgery, 17.

Arteritis
Clinical-tomographic evolution of a giant intracranial aneurysm. Case report, 29.

Aspergillosis
Drainage of Aspergillus "primitive" brain abscess with long-term survival. Case report, 155.

Astrocytomas
Histologic and clinical factors of prognostic significance in astrocytic gliomas, 231.
Iodine-125 lebeled anti-epidermal growth factor receptor-425 in the treatment of malignant astrocytoma. A pilot study, 243.
Simultaneous multiple brain tumors of different histological nature. Report of two cases, 57.
The progression in astrocytic tumors, 199.

Autocrine stimulation
Role of autocrine stimulation in a glioma cell line, 189.

Autoradiography, quantitative
Effect of X-radiation to brain on cerebral glucose utilization in the rat, 215.

Azygous pericallosal artery
Aneurysms of azygous anterior cerebral artery. Report of two cases treated by surgery, 17.

Beta-endorphin
Beta-endorphin concentrations both in plasma and in cerebrospinal fluid in response to acute painful stimuli, 99.

Bleeding, intratumoral
Acoustic neurinoma with intratumoral bleeding, 65.

Brachycurietherapy
New perspectives in brachycurietherapy of malignant brain tumors. Preliminary report, 239.

Brain abscess
Drainage of Aspergillus "primitive" brain abscess with long-term survival. Case report, 155.

Brain metastases
Brain metastases: surgical versus conservative treatment, 309.
Surgical treatment of 100 single brain metastases. Analysis of the results, 303.
The effect of brain radiotherapy on the P3 component of ERP's, 327.

Brain tumors
Biological basis and integrated treatment of malignant cerebral tumors, 161.
Brain ganglioglioma with large extension to subarachnoid space, 61.
Cystic appearance of meningiomas: considerations on a series of 12 patients, 41.
Effect of X-radiation to brain on cerebral glucose utilization in the rat, 215.
Experience in "radical" surgery of supratentorial gliomas in adults, 297.
Glioblastoma multiforme of the pineal region, 149.
Glioma malignancy and its biological and histological correlates, 163.
Histologic and clinical factors of prognostic significance in astrocytic gliomas, 231.
Immunotherapy of brain tumors, 265.
Inhibiting action human glioblastoma extract on haemolytic complement of human and xenogeneic sera, 107.
Intracranial tumors of the first year of life, 299.
Molecular organization of oncogenes and potentially oncogenic regulatory genes in primary human brain tumors, 175.
Neurocytogenesis and tumor development in the rat, 167.
New perspectives in brachycurietherapy of malignant brain tumors, Preliminary report, 239.
Simultaneous multiple brain tumors of different histological nature. Report of two cases, 57.
Stereotactic support in the excision of brain tumors, 315.
Surgical treatment of pediatric malignant neuroepithelial brain tumors, 301.
The progression in astrocytic tumors, 199.

Cavernous sinus
Asymptomatic occlusion of the internal carotid artery at the skull base, 21.

Central nervous system tumours
Prognostic relevance of hormonal and kinetic parameters in central nervous system neoplasms, 227.

Cerebellar medulloblastoma
A case of multifocal cerebellar medulloblastoma in an adult patient, 323.

Cerebral angiography
Thrombosis of intracranial venous sinuses: aetiology, clinical findings and prognosis of 56 patients, 117.

Cerebral haematoma, spontaneous
Considerations about the surgical indication of the spontaneous cerebral haematomas, 35.

Cerebral hemorrhage
Clinical-tomographic evolution of a giant intracranial aneurysms. Case report, 29.

Cerebral infarction
Clinical-tomographic evolution of a giant intracranial aneurysms. Case report, 29.

Cerebral ischemia
Clinical-tomographic evolution of a giant intracranial aneurysms. Case report, 29.

Cerebral malignant gliomas
Prognostic significance of lymphoid infiltration in cerebral malignant gliomas, 145.

Cerebrospinal fluid
Beta-endorphin concentrations both in plasma and in cerebrospinal fluid in response to acute painful stimuli, 99.

Chemotherapy
Intracranial tumors of the first year of life, 299.
Intratumoral beta-interferon and systemic chemotherapy. Preliminary data in GBM patients, 257.
Preliminary data by Cis-platin and etoposide using in primary glioblastoma, 279.
Single versus multiple drug therapy in the combined treatment of malignant gliomas. A multicenter study, 251.

Cholesteatoma
Epidermoid cysts of the fourth ventricle, 137.

Circle of Willis
Modalities of origin of the middle cerebral artery. Incidence on the arrangement of the perforating branches, 7.

Cis-platin
Preliminary data by Cis-platin and etoposide using in primary glioblastoma, 279.

Clips
Small aneurysm clips for surgery of neck vessels, 13.

Combined modality treatment
Lonidamine in the combined treatment of malignant gliomas. A randomized study, 261.

Computed tomography
Considerations about the surgical indication of the spontaneous cerebral haematomas, 35.
Cystic appearance of meningiomas: considerations on a serie of 12 patients, 41.

Congenital brain tumors
Intracranial tumors of the first year of life, 299.

Cortical evoked response
Chronic damage after spinal trauma in rat: neurophysiological and ultrastructural investigations, 1.

Craniocerebral penetrating injury
Oculocerebral perforating trauma by foreign objects: diagnosis and surgery, 111.

CT scan
Utility and limits of an imaging follow-up in evaluation of response and evolution of cerebral tumors after radiotherapy, 235.

Cystic meningioma
Cystic appearance of meningiomas: considerations on a series of 12 patients, 41.

Cytoskeleton
Neurocytogenesis and tumor development in the rat, 167.

Deafferentation dysesthesias
The theory of chronic deafferentation dysesthesias, 71.

Differentiation
Preferential expression of the dbl proto-oncogene in some neuroectodermal tumors, 187.

Duplication
Modalities of origin of the middle cerebral artery. Incidence on the arrangement of the perforating branches, 7.

Dysembryoplastic neoplasms
Epidermoid cysts of the fourth ventricle, 137.

Dysesthesias
The theory of chronic deafferentation dysesthesias, 71.

Endarterectomy
Small aneurysm clips for surgery of neck vessels, 13.

Epidermal cysts
Epidermoid cysts of the fourth ventricle, 137.

Epidermal growth factor receptor
Epidermal growth factor receptor and tissue tumor markers in human intracranial neoplasms, 181.

Estrogen binding sites
Type II estrogen binding sites (EBS) in intracranial tumors, 205.

Etoposide
Preliminary data by Cis-platin and etoposide using in primary glioblastoma, 279.

Ganglioglioma
Brain ganglioglioma with large extension to subarachnoid space, 61.
Cerebellar ganglioglioma. Case report, 151.

Giant aneurysm
Asymptomatic occlusion of the internal carotid artery at the skull base, 21.
Clinical-tomographic evolution of a giant intracranial aneurysm. Case report, 29.

Glioblastoma
Adoptive immunotherapy with adherent lymphokine-activated killer (A-LAK) cells in glioblastoma multiforme, 283.
Antiproliferative effect of lonidamine an a human glioblastoma multiforme cell line, 193.
Glioblastoma multiforme of the pineal region, 149.
Inhibiting action human glioblastoma extract on haemolytic complement of human and xenogeneic sera, 107.
Intratumoral beta-interferon and systemic chemotherapy. Preliminary data in GBM patients, 257.
Preliminary data by Cis-platin and etoposide using in primary glioblastoma, 279.

Glioma
Glioma malignancy and its biological and histological correlates, 163.
Histologic and clinical factors of prognostic significance in astrocytic gliomas, 231.
Lonidamine in the combined treatment of malignant gliomas. A randomized study, 261.
Oncogenes and growth factors in gliomas, 171.
Prognostic significance of lymphoid infiltration in cerebral malignant gliomas, 145.
Role of autocrine stimulation in a glioma cell line, 189.
Single versus multiple drug therapy in the combined treatment of malignant gliomas. A multicenter study, 251.
Surgical therapy of malignant gliomas, 289.
The membrane-bound hesokinase as a potential marker for malignancy in human gliomas, 209.
Ultrastructural immunocytochemistry in glial tumors, 219.
Utility and limits of an imaging follow-up in evaluation of response and evolution of cerebral tumors after radiotherapy, 235.

Gliosarcoma
Simultaneous multiple brain tumors of different histological nature. Report of two cases, 57.

Gold labelling
Ultrastructural immunocytochemistry in glial tumors, 219.

Growth factors
Iodine-125 lebeled anti-epidermal growth factor receptor-425 in the treatment of malignant astrocytoma. A pilot study, 243.
Oncogenes and growth factors in gliomas, 171.
Role of autocrine stimulation in a glioma cell line, 189.

Glucose
Effect of X-radiation to brain on cerebral glucose utilization in the rat, 215.

Haematoma intracerebral, evacuation
Considerations about the surgical indication of the spontaneous cerebral haematomas, 35.

Haemorrhage
Intracerebral haemorrhage: criteria for prognosis on the grounds of clinical and CT data, 123.

Haemorrhage spontaneous intracerebral
Considerations about the surgical indication of the spontaneous cerebral haematomas, 35.

Hexokinase
The membrane-bound hesokinase as a potential marker for malignancy in human gliomas, 209.

Histological diagnosis
Glioma malignancy and its biological and histological correlates, 163.

Infection
Oculocerebral perforating trauma by foreign objects: diagnosis and surgery, 111.

Immunocytochemistry
The role of immunocytochemical assays in the diagnosis of stereotactic biopsie from intracranial tumors, 223.
Ultrastructural immunocytochemistry in glial tumors, 219.

Immunology
Immunotherapy of brain tumors, 265.

Immunotherapy
Adoptive immunotherapy with adherent lymphokine-activated killer (A-LAK) cells in glioblastoma multiforme, 283.
Immunotherapy of brain tumors, 265.

Interferon
Intratumoral beta-interferon and systemic chemotherapy. Preliminary data in GBM patients, 257.

Internal carotid artery occlusion
Asymptomatic occlusion of the internal carotid artery at the skull base, 21.

Intracerebral haematoma evacuation
Considerations about the surgical indication of the spontaneous cerebral haematomas, 35.

Intracerebral haemorrhage
Intracerebral haemorrhage: criteria for prognosis on the grounds of clinical and CT data, 123.

Intracranial foreign body
Oculocerebral perforating trauma by foreign objects: diagnosis and surgery. 111.

Intracranial meningiomas
Association of intracranial meningiomas and aneurysms. Report of three cases and review of literature, 51.

Intracranial tumors
Epidermal growth factor receptor and tissue tumor markers in human intracranial neoplasms, 181.
Intracranial tumors of the first year of life, 299.
The role of immunocytochemical assays in the diagnosis of stereotactic biopsie from intracranial tumors, 223.

Intratumoral bleeding
Acoustic neurinoma with intratumoral bleeding, 65.

Iodine-125 labeled
Iodine-125 lebeled anti-epidermal growth factor receptor-425 in the treatment of malignant astrocytoma. A pilot study, 243.

Lenticulostriates
Modalities of origin of the middle cerebral artery. Incidence on the arrangement of the perforating branches, 7.

Lonidamine
Antiproliferative effect of lonidamine an a human glioblastoma multiforme cell line, 193.
Lonidamine in the combined treatment of malignant gliomas. A randomized study, 261.

Lymphoid infiltration
Prognostic significance of lymphoid infiltration in cerebral malignant gliomas, 145.

Lymphokine-activated killer cells
Adoptive immunotherapy with adherent lymphokine-activated killer (A-LAK) cells in glioblastoma multiforme, 283.

Malignant cerebral tumors
Biological basis and integrated treatment of malignant cerebral tumors, 161.

Medulloblastoma
A case of multifocal cerebellar medulloblastoma in an adult patient, 323.

Meningeal tumors
Brain gangliomioma with large extension to subarachnoid space, 61.

Meningioma
Association of intracranial meningiomas and aneurysms. Report of three cases and review of literature, 51.
Asymptomatic occlusion of the internal carotid artery at the skull base, 21.
Cystic appearance of meningiomas: considerations on a series of 12 patients, 41.
Simultaneous multiple brain tumors of different histological nature. Report of two cases, 57.
Type II estrogen binding sites (EBS) in intracranial tumors, 205.

Metastases, brain
Brain metastases: surgical versus conservative treatment, 309.
Surgical treatment of 100 single brain metastases. Analysis of the results, 303.
The effect of brain radiotherapy on the P3 component of ERP's, 327.

Middle cerebral artery
Modalities of origin of the middle cerebral artery. Incidence on the arrangement of the perforating branches, 7.

Multiple brain tumors
Simultaneous multiple brain tumors of different histological nature. Report of two cases, 57.

Mycosis
Drainage of Aspergillus "primitive" brain abscess with long-term survival. Case report, 155.

Neoplasms of the central nervous system
Prognostic relevance of hormonal and kinetic parameters in central nervous system neoplasms, 227.

Neurocytogenesis
Neurocytogenesis and tumor development in the rat, 167.

Neuroectodermal tumors
Preferential expression of the dbl protooncogene in some neuroectodermal tumors, 187.

Neuroepithelial brain tumors
Surgical treatment of pediatric malignant neuroepithelial brain tumors, 301.

Neuroepithelial neoplasms
Type II estrogen binding sites (EBS) in intracranial tumors, 205.

Neuroimmunology
Inhibiting action human glioblastoma extract on haemolytic complement of human and xenogeneic sera, 107.

Neuronal tumor
Brain ganglioglioma with large extension to subarachnoid space, 61.

Non-Hodgkin's lymphoma
A case of optic nerve oligodendroglioma associated with an orbital non-Hodgkin's lymphoma in adult. Case report, 319.

Oculocerebral perforating trauma
Oculocerebral perforating trauma by foreign objects: diagnosis and surgery, 111.

Oligodendroglioma
A case of optic nerve oligodendroglioma associated with an orbital non-Hodgkin's lymphoma in adult. Case report, 319.

Oncogenes
Molecular organization of oncogenes and potentially oncogenic regulatory genes in primary human brain tumors, 175.
Oncogenes and growth factors in gliomas, 171.
Preferential expression of the dbl protooncogene in some neuroectodermal tumors, 187.

Optic nerve
A case of optic nerve oligodendroglioma associated with an orbital non Hodgkin's lymphoma in adult. Case report, 319.

Orbit
A case of optic nerve oligodendroglioma associated with an orbital non-Hodgkin's lymphoma in adult. Case report, 319.

Pain
Beta-endorphin concentrations both in plasma and in cerebrospinal fluid in response to acute painful stimuli, 99.
The theory of chronic deafferentation dysesthesias, 71.

Pediatric neurosurgery
Intracranial tumors of the first year of life, 299.
Surgical treatment of pediatric malignant neuroepithelial brain tumors, 301.

Perforating orbito-cranial trauma
Oculocerebral perforating trauma by foreign objects: diagnosis and surgery, 111.

Pineal gland
Glioblastoma multiforme of the pineal region, 149.

Positron emission tomography
Effect of X-radiation to brain on cerebral glucose utilization in the rat, 215.

Radiotheraphy
Effect of X-radiation to brain on cerebral glucose utilization in the rat, 215.
New perspectives in brachycurietherapy of malignant brain tumors. Preliminary report, 239.
Single versus multiple drug therapy in the combined treatment of malignant gliomas. A multicenter study, 251.
The effect of brain radiotherapy on the P3 component of ERP's, 327.
Utility and limits of an imaging follow-up in evaluation of response and evolution of cerebral tumors after radiotherapy, 235.

Rat
Chronic damage after spinal trauma in rat: neurophysiological and ultrastructural investigations, 1.
Effect of X-radiation to brain on cerebral glucose utilization in the rat, 215.
Neurocytogenesis and tumor development in the rat, 167.

Receptor estrogen
Molecular organization of oncogenes and potentially oncogenic regulatory genes in primary human brain tumors, 175.

Regeneration
Chronic damage after spinal trauma in rat: neurophysiological and ultrastructural investigations, 1.

Saccular aneurysm
Aneurysms of azygous anterior cerebral artery. Report of two cases treated by surgery, 17.

Spinal trauma
Chronic damage after spinal trauma in rat: neurophysiological and ultrastructural investigations, 1.

Spontaneous intracerebral haemorrhage
Considerations about the surgical indication of the spontaneous cerebral haematomas, 35.

Stereotactic biopsy
The role of immunocytochemical assays in the diagnosis of stereotactic biopsie from intracranial tumors, 223.

Stereotaxis
New perspective in brachycurietherapy of malignant brain tumors. Preliminary report, 239.
Stereotactic support in the excision of brain tumors, 315.

Surgical therapy
Brain metastases: surgical versus conservative treatment, 309.
Experience in "radical" surgery of supratentorial gliomas in adults, 297.
Surgical therapy of malignant gliomas, 289,
Surgical treatment of 100 single brain metastases. Analysis of the results, 303.

Thrombosis
Thrombosis of intracranial venous sinuses: aetiology, clinical findings and prognosis of 56 patients, 117.

Trauma
Chronic damage after spinal trauma in rat: neurophysiological and ultrastructural investigations, 1.
Oculocerebral perforating trauma by foreign objects: diagnosis and surgery, 111.

Tumor markers
Epidermal growth factor receptor and tissue tumor markers in human intracranial neoplasms, 181.
The membrane-bound hesokinase as a potential marker for malignancy in human gliomas, 209.

Venous thrombosis
Thrombosis of intracranial venous sinuses: aetiology, clinical findings and prognosis of 56 patients, 117.

Vessel wall
Small aneurysm clips for surgery of neck vessels, 13.
